## Who you can vote for

You are entitled to vote for the Connétable of your Parish and 5 Deputies in the Election if you live in the constituency of St Helier Central, are aged 16 and over, and have registered to vote. From June 2022 the role of Senator will no longer exist.

**Connétables:** Each Parish has a Connétable, who is the administrative head of the Parish.

**Deputies:** There are 37 Deputy roles, split between the nine constituencies.

## Registering to vote

You have to be registered in order to vote. If you haven't done so yet, you have until midday on Wednesday 15 June to join the Supplementary Register. It takes just two minutes at [Vote.je/register](https://vote.je/register) or you can do so in person at your Parish Hall.

Simon Crowcroft, 'Working for St Helier'

I enjoy the role of Constable and hope to continue to serve my Parish. St Helier is under extreme pressure, much moreso than in recent years: I think I have the right combination of experience and skills to ensure that it is protected from harm, offers residents the best possible quality of life, and is supported by a States Member with no party allegiance or agenda other than supporting St Helier.

As an independent backbencher I have brought many propositions for debate in the States, the majority of which have been successful, such as repeated efforts to get the States to pay rates, measures to ensure that if the new hospital goes ahead at Overdale any lost Parish facilities will be replaced, agreement on a new country park and, most recently, the decision to support the Havre des Pas lido.

However, Government still fails to treat St Helier fairly in terms of the cost of running the capital, with St Helier ratepayers still having to fund services which are paid for out of general taxation in other parishes, and decisions are taken by Government, affecting St Helier residents and businesses, which should be devolved to a new elected body.

I was disappointed that Andium Homes' recent proposal to double the size of the Millennium Town Park was not supported by the States and I will seek to ensure that this vital project goes ahead, as I believe that the thousands of existing and new residents in central St Helier need a bigger park. I will continue to fight to protect the Parish's precious parks, gardens and open spaces from development.

If re-elected I will seek the setting up of an Urban Task Force to enable regeneration projects to happen much faster and to ensure that residential areas in which most parishioners live are not neglected while the Government works up plans for projects like Fort Regent and the Waterfront. I will continue to press Government to deliver on promises to make walking and cycling easier and safer; to produce the long delayed 'Hoppa Bus' network and a parking strategy which does not disadvantage St Helier car owners, and provides sufficient parking for shoppers and visitors to town.

In March, St Helier had its first St Patrick's Day Parade and I will continue to encourage the holding of events and festivals in the Parish. I have a hands-on and can-do approach to my work, encouraging al fresco and the opening of new hospitality businesses,

supporting town's retailers, and doing all I can to ensure that the Parish team creates a welcoming environment that is clean, attractive, inclusive and valued, with customer care, courtesy, good communication, environmental awareness and efficiency the hallmarks of our dealings with parishioners. I support the invaluable work of the Honorary Police and our other volunteers, including the Battle of Flowers, and with the cost of living rising dramatically I will do all I can to continue to keep Parish rates low.

I am a Jerseyman and have lived in Jersey my whole life. I was born in St Helier, where I currently reside with my wife and two children. An electrician by trade, and the owner and director of two successful businesses.

I regularly encounter parishioner's points of views regarding parish matters and this was my calling in which to stand for election. To be in a role where I can voice people's concerns, to implement their choices and to be their States representative, whilst endorsing my own qualities, skillsets and values.

I'm passionate about St Helier and respect tradition, however a fresh contemporary approach is now required.

I pride myself on being a proactive person and do not make empty promises. I will not be joining a political party as I believe the Constable should remain impartial.

I recognise a need for improving paths for pedestrians/cyclists but there is also a realistic requirement for parking which needs to be rebalanced. There is not enough parking for the disabled, shoppers, residents and contractors alike who are all dissuaded from coming into town because of the parking situation, which in return has a knock-on effect to businesses due to the deficiency in footfall. This needs to be actioned.

We need to ensure a bright, clean and vibrant St Helier, whilst continuing to care and respect the elderly within our community. We should also utilise local talents before consulting resources elsewhere.

Priorities;

- **Improve disability access/ awareness** – Review disabled parking areas and building access. Enhance road/pavement surfaces for disabled individuals.
- **Parking, Roads & Infrastructure** – Although I support a green environment, there is still a need for parking. I propose free on-street parking zones and more car parks. Endeavour to open Broad Street and to review Midvale Road.
- **Environment** – Support resources that protect the environment, welcome the initiation of energy efficient devices with consumer incentives. More kerb-side recycling.
- **Health** – The requirement for a new hospital is crucial, but not at Overdale.
- **Rates** - Sustain low rates whilst providing efficient services that the municipality expects.
- **Homelessness** – Support the Homeless Jersey Strategy. It's important to understand and prevent where possible, individuals from being in such a situation.

- **Young people** – Putting children first. Provide apprenticeship opportunities, present more activities i.e. electric go-karting, under 16's discos. Support the Freedom Centre in restoring the former Odeon where youngsters can meet.
- **Communication** – Improve communication and transparency for parishioners by publicising quarterly meetings to express concerns and provide feedback. Review parish structure and voting system.
- **Honorary Police** – Support the recruitment of the Honorary Police which is a part of our islands heritage and should be retained.
- **Elderly** – Support and care for the elderly. Introduce OAP schemes/ privileges.
- **Island-Wide Matters** – To support any States initiative that will actively target these concerns i.e. housing crisis.

It would be a great privilege to become father of the parish and to be an advocate for the parishioners. I would like to thank everybody who has nominated me for this challenging but assumingly rewarding role.

It has been a privilege to serve as Deputy of St Helier District 2 and I am now standing for re-election in St Helier Central.

I was born and raised in Jersey and had a career as a Mathematics teacher before being elected to the States in May 2018, when I became the first States Member of Portuguese heritage.

For me, ensuring Jersey is a place where we all have equal access to the services and support we need in order to achieve, inspire and flourish, has never been more important.

## Health:

Islanders' health continues to be a real issue.

Ensuring we have **affordable, easy, and early access to quality health services** is paramount.

In this last term I was a member of the Health and Social Security scrutiny panel. We completed two in-depth reviews on mental health and maternity services, gathering evidence from the public and their experiences, which highlighted some real issues in our healthcare service and resulted in the government implementing several of our recommendations produced in the reports.

I was successful in getting the government to set up a compensation scheme for people suffering from Mesothelioma after contact with asbestos. I also brought forward proposals to make GP appointments free for children aged between 4 and 17 years, which, unfortunately, was rejected by the assembly.

If re-elected, my first steps would be to bring back proposals for free GP visits for young people as well as for those with long term life illnesses.

A holistic approach to health is needed; good healthcare recognises the link between physical, mental, and social wellbeing. Factors such as unaffordable and sub-standard housing or inadequate work conditions all have an impact on people's health.

## Transparency

The public are often left frustrated, disillusioned, or confused by systems in place.

In the past four years, I have supported numerous individuals and families with wide ranging issues and had positive outcomes. This has taught me that often the lack of information and awareness of rights is what holds people back; this is not acceptable.

Empowering people and ensuring they understand their rights, and have access to all the information they need is vital. I will ensure that Government communicates more clearly and in an accessible and consistent way to everyone.

## Experience:

In this last term I was Chair of the Privileges and Procedures Committee (the body that oversees the running of our Assembly), the Political Education and Awareness Committee and Vice Chair of the Diversity Forum, as well as part of the Covid Response Community Taskforce team.

I also successfully completed a course in Parliamentary Governance which increased my knowledge and competence to do this role and serve you, the public, to the best of my ability.

It has been a steep learning curve with COVID and Brexit, but the party and I have worked extremely hard to continue to support our constituents. This election could be a real turning point for achieving tangible changes.

Please vote Reform Jersey to make change happen!

I am Jersey born and have lived in this district as a child. I live and work in the Parish where I run my own business. I have served the Parish for over 30 years in an honorary capacity. I am a member of the Parish Roads Committee and Accounts Committee. With this background, I feel I can do much more as a Town Deputy to benefit the Parish and its Residents.

I have decided to stand in the Central district because it needs particular attention. We need more and better facilities in town, particularly for families and young people. More nurseries and schools, open spaces, pocket parks and playgrounds. Every resident should have green space available within 5 minutes of where they live. We need to extend Millennium Park. Community involvement in town planning is important in this respect. There are many other green initiatives we can make

## Island Issues:

### Health Care

I am a member of the Friends of Our New Hospital group and attended the recent planning inquiry where I presented my objections to the plans which are not fit for purpose, too expensive, in addition, the Jersey Care Model is a UK concept that does not suit our Island.

### Housing

We need a new housing model to allow the young to avoid the rental trap and be able to afford decent housing. There are many solutions that can be seen around the world. Jersey has been slow to adopt shared cost and modular house build alternatives and other innovative solutions.

### Tax

Our Tax model is both unfair and outdated. It needs a complete overhaul and concepts such as Zero/Ten and GST need a complete rethink. Corporation Tax needs a re-think.

### Agriculture and Tourism

These industries are both in decline and whilst we must preserve green space, we can put these open areas to better use. We must stop the decline in the quality of the soils from intense monoculture and subsequent spreading of chemicals on the land which pollute our waterways. The Island has a rich history and Tourism could be better directed at celebrating our past as well as encouraging visitors to explore our beautiful Island

### Transport

The Town needs improved transport links, a frequent hopper bus service and better routes for cyclists, safer routes for children to walk and cycle

to school. Our dependency on the car has reached unmanageable proportions. The amount of traffic that passes through town causes continuous pollution and increases respiratory problems in the young. We need to consider greener methods of transport for people of all ages and abilities.

### The Environment

I have a passion for St Helier and as an environmentalist, I have a vision to improve the town for its residents and visitors by making it a cleaner, greener and a more pleasant place in which to live and work. From an Island's point of view, we need to do much more to protect our Island's environment and biodiversity. We must look at Renewable Energy alternatives to fossil fuels.

REFORM JERSEY

@ catwuk@yahoo.co.uk

www.catherinecurtisje.com

I am standing for election as Deputy of St. Helier Central as a Reform Jersey candidate.

The three priorities in my life are:  
Family . Business . Community .

Born and educated in Jersey, I have lived here most of my life, apart from six years living in Spain and England. I appreciate how lovely Jersey is, and in many ways it's a great place to live. I have a first class Degree, and a Diploma in International Environmental Policy.

I am very lucky to have five amazing children; my youngest is almost 16 years old.

I founded and own two local businesses, and I'm the founder of an international brand which has won multiple design awards. It was listed in Sir Richard Branson's top twenty UK and Irish businesses. I stepped down as Managing Director in 2020, and a new team took over. I gained great knowledge and experience while running this venture, learning much about management, negotiation, and risk.

I have held many voluntary positions and I'm a Rates Assessor for St Helier. Through the pandemic I also worked night shifts as a carer, primarily to spend time with my mother, who was

resident at St Joseph's Care Home, and still do some night shifts for Positive Steps. While working at St Joseph's I gained a level three Diploma in Adult Care. I have also been a foster carer for about five years. We had many lovely children come to stay with us, and it was a great benefit to my own children.

I am proud to be standing as a member of Reform Jersey. This is the party that has consistently brought propositions to improve people's lives. We support each other and share the same values. As a social democrat, I believe in a market economy with strong social benefits.

Focus:

- Housing – Many first time buyers cannot afford to buy and many residents cannot afford to rent. Those who have bought a one bedroom flat cannot afford to buy anything bigger, so young people are leaving Jersey.
- Cost of living – with GST added to already expensive essentials, cost of living is too high. As well as causing hardship, the wider impact is that people have little disposable income to spend to stimulate the local economy.

- Business – everyone should have the opportunity to follow their aspirations. Jersey needs to be open to sustainable business opportunities
- Children – Jersey's education spend is too low. We need more assistance available for children in crisis, urgently, and should examine the potential for extending free nursery care to two year olds.
- Older People – older people's wishes must be respected. Those who own their homes must not be put under pressure to move, while those who do want to downsize often can't find anything suitable. We need more quality sheltered housing.
- Health – an ombudsman is urgently needed. The proposed huge debt for the new hospital needs reigning in. The new Care Model needs thorough assessment.

Dear voter,

I have chosen to run for election as Deputy of St. Helier Central because I want to represent the people of the district in the States Assembly. My family has lived in the district for five generations, and my mother (Shirley Baudains) has previously represented the Rouge Bouillon area as Deputy.

I have been chairperson of Reform Jersey party for three years and I am also chair of the civil service branch of Unite the Union. I have over 15 years of public sector experience in Jersey and Australia. This experience has given me the skills to be an effective States Member. I understand public administration and governance, as well as being able to help people with their individual concerns. I was born and educated in Jersey, and lived and worked in Western Australia for 11 years. I have an honours degree in Enterprise Management, and a masters degree in Cultural and Media Studies.

As a working mother living in St. Helier, I understand the day to day issues facing working families living in the area. St. Helier Central is the most densely populated district and houses a diverse community that needs access to schools and community facilities, and safe, well maintained public open spaces, as many of us do not have

gardens. It's also essential that we address air quality issues caused by the high volume of traffic that uses the main access routes into town that cut across the district.

I believe that Government services should provide the very best value for the people of our Island. Ministers should be accountable for the way that government departments are run, and waste should be reduced in the public sector so that public money can be invested to improve frontline services such as mental health, education, family support, and care for the aged.

I am standing alongside other Reform Jersey candidates on a platform for change. We have produced a comprehensive manifesto outlining our policies which you can find at [www.reformjersey.je](http://www.reformjersey.je).

If we get elected to government, we will set these three priorities for this term of office:

1. Create a more equal society
2. Prepare Jersey for the challenges of the future
3. Restore government accountability and democracy

These priorities will serve people living in St. Helier Central well and improve our everyday lives.

Reform Jersey has published a 'Housing Crisis Action Plan', which includes proper rent regulation and support for first-time buyers. We will also bring in a landlord licensing scheme to ensure that rented properties are safe to live in and tenants are protected.

We would also reduce income inequality by increasing the Minimum Wage to a living wage and cutting GST on essential items. Healthcare should be free at the point of need, and a Reform Jersey led government would bring in measures to make it free for you to see your doctor.

The more Reform Jersey candidates that get elected, the greater our opportunity to make a difference.

I am a long-term resident of St Helier Central.

Jersey is a beautiful small island that is self-governing. It can and should make decisions appropriate for the Island and allow its people and businesses to flourish.

I strongly believe we need to have the smallest effective Government.

Government should provide services the private does not do, or does poorly.

We need fresh innovative and a strong States Assembly to make business-like decisions, based on facts, costs and benefits.

## Control of States Expenditure and Projects

The States Assembly must be in control of the direction and spending of the Government and Civil Service.

Ministers and civil service departments must be, and be seen to be fully accountable to the electorate.

## Jersey Open To Business

All States Expenditure ultimately comes from the private sector and individuals via taxation.

Our main and traditional industries have stagnated or declined, so we need to encourage new industries with positive environmental and social impact. Entrepreneurs and Corporations should know Jersey is welcoming to the right businesses.

## Population and Immigration.

New innovative businesses need employees with specialist skills.

Imported skilled workers required here on a continuous basis should reside here, they will reduce costs, increase tax revenue and pass on skills to the local workforce.

Small businesses urgently need staff because 4,000 people have left the island and the States have employed 1,000 more.

Permanent residency should be on merit and social value to the Island.

## Housing

More 'right sized' Social Housing is required to allow people to start families and locals to stay. More social housing will moderate Private Sector prices and speculation.

Underutilised States properties should be developed as Social Housing now, not 'land banked.'

Private brownfield sites should likewise be encouraged to be appropriately and usefully developed.

New building techniques need to be investigated to reduce cost and timelines.

## Transport

Jersey has 125,000 vehicles registered for 103,000 people on our small island.

By encouraging e-bikes, better bus services, car share, supermarket home deliveries etc. fewer people would need cars reducing emissions and freeing space for housing and outdoor space without increasing built environment. A better more affordable alternative to a private car for the individual.

## Health and Hospital.

Government projects should be the right size for the island and not 'Landmark', 'Iconic' or vanity projects.

Apparently £100M, spent on professional fees on the new hospital and yet it is not what is needed.

Regular medicals will identify illnesses sooner, minimising effect on individual, by prompting lifestyle changes and costing less to the state.

Mental Health programs should be provided sooner especially in the wake of the pandemic. Online therapists are affordable and available now.

Some of the above ideas may not work or not be approved, but I believe in innovative thinking to solve our problems. The States Assembly needs to have members who are seeking a better future for us all.

Jersey is perfectly poised to provide a prosperous future for ourselves and future generations and a great environment in which to LIVE.

www.reformjersey.je

I have been Deputy of St Helier no.2 district for the past 21 years, and during this time I have worked hard to represent all residents, both collectively in the States, and as individuals when problems arise. I remain an active member in terms of questions asked and propositions lodged.

As a member of Reform Jersey, the only organised and effective political party in the States, I will continue to promote progressive solutions for the problems we face in society. For too long now we have suffered from governments whose sole aim has been to protect the needs of the wealthy few at the expense of the rest. The current government, despite its promises 'to reduce income inequality and improve the standard of living' made in 2018, has produced a low-wage, high-rent economy where middle and low earners struggle to make ends meet.

Pressure from your five Reform Jersey Deputies has produced a higher minimum wage and the adoption of the living wage. We intend to replace the minimum wage (£7.22) with the living wage, (currently £12.02) before 2026. We shall act on the current investigation into insecure working conditions such as zero hours contracts. We shall undertake a thorough examination of employment

law to introduce 'day 1 rights' to respect and protect our workers.

We have successfully reduced Andium rents from 90% of private sector rents to 80% and will further reduce rents in the public and private sectors as a priority. We were also behind the agreement to investigate empty property charges as a means to open the housing market. We have a full set of proposals to improve access to housing, including shared ownership.

There can be little doubt that our Health Service is under extreme pressure, both in the hospital and in primary care, largely through its GP service. Reform Jersey pressure persuaded the Social Security minister to reduce GP fees from £50 to £12 for those on Income Support and Pension Plus. We will push to expand access to this scheme to wider groups such as those with chronic illness, children and the elderly.

This current government has wasted enormous sums of money on the new hospital, but it has lost sight of what the basic needs of the island are. The government needs to accept that it must recruit and retain staff at all levels, from care assistants to consultants, and that this is now an expensive island. Until we can put together sufficiently attractive employment packages we will remain dependent on expensive agency and locum staff.

Reform Jersey is committed to reducing income tax rates for those on low and middle incomes, and to end the cap on social security. These two actions alone will raise up to £50m in additional revenue to fund essential services.

I have the energy, enthusiasm and, above all the know-how to continue to fight for social justice, so vote for me, as one of the Reform Jersey team in St Helier Central.

People have asked me many times in the past if I would think of standing for Election. I never felt the time was right due to family and business commitments and that I would not have been able to fully focus on governmental work. However, today, in the words of Robert Burns “Now’s the Day and Now’s the hour”

I was born in Jersey but my formative years were spent abroad due to my father’s work, returning to the Island in 1977 at the age of 17 at a time when Tourism was booming and Jersey had a thriving economy. My late uncle Cyril Tanguy became a States member in 1960 and was to remain a Deputy of St Helier District No 1 for 18 years, serving as President of Harbours and Airport and Telecoms. I have three grown up children who were all born and educated in Jersey.

I am very much a people’s person having spent 45 years in the nightclub industry, meeting and mixing with people from all walks of life. This has given me a very good insight into what makes people happy or disillusioned

with living in Jersey; from my recent experience it is very much that of the latter. I have always been happy to air my views when asked and never afraid to put my head above the parapet.

As a small business owner in St Helier, I feel there was a lack of support from government during the pandemic. Financial support for small business was slow to be implemented, to follow that, and in some cases, substantial amounts that were given through the Co-funding payroll scheme are being reclaimed. This has caused much distress to many who are only just beginning to recover.

This year following the Covid pandemic I felt it was the right time to stand and use my voice for the electorate. I would like to put something back into the community and preserve much of what is good about the Island and help to improve the quality of life for all islanders. This is a vital time as we return to some sense of normality.

I have always enjoyed being part of a team. I was very impressed by the ideas of the Jersey Alliance and the thought of working within a team framework for the good of the many rather than the few.

The policies of the Party are well laid out on our website and information will be coming through your letter box as to our vision.

As someone whose business is in St Helier, I believe I know the area well and I look forward to meeting as many of you as possible in the coming weeks.

If I was fortunate enough to gain your confidence and your vote I will dedicate all my efforts to helping the people of St Helier Central.

My name is Julie Wallman and I am standing as Deputy for St Helier Central.

I have worked in the creative industry now for over 35 years. I started as a runner and have worked my way up the industry as a script supervisor to now CEO of Green Eye Productions Academy UK and its sister company is in Jersey.

I left Jersey at the age of 12, it was not my decision, it was made for me.

At 18 I left Ireland and went to London with £200 in my pocket, from there I worked as a carer, a role I did from a young age looking after my mother.

I would apply for creative jobs but got nowhere until a surprise gift was given to me from a client I cared for who gave me a flat in London, rent free. This gave me a chance of focusing on sending out CV's for opportunities in the creative industry.

The opportunities came much more quickly when you have accommodation that you don't have to pay for and you have a very nice post code.

My career in the creative industry took off quickly and I continued my role as carer still looking after my mother financially until she passed away in 2015.

I have worked in all sectors of the creative industry.

I am a BAFTA member.

I was headhunted to go to Rome to set up one of the first fully digital TV companies in the world, Orbit, Sapienza Rome. My role was to train and give the locals opportunities which I did. I was paid a lot to do this job, but it taught me that everyone has talent if they are given a chance.

I have continued my work as a carer looking after my father and before that my twin sister who had an accident on a film set.

What life has taught me is that experience comes from 'doing' and for those of us who did not get a degree at University, I like to answer in a different way 'my experience comes from a degree in life' and from hard work.

I would love serving the people of St Helier Central with a belief that no matter who you are, where you come from, be yourself and be as good as you can be, follow your path and dreams of a better life to come.

My areas will be to tackle the social inequalities of this Island, to always be respectful of all cultures and backgrounds and to respect the Island's countryside and to always remember the role of a Politician if I get in, is to serve the people who voted for me and those who did not, that they are not forgotten.

During my first term as a Deputy for St Helier, I have proved myself a dedicated and hard working representative. I have brought a number of propositions for real change to the assembly. These include successful propositions to deliver a new youth and community centre in the north of town, introduce a bus pass for students and declare a climate emergency. I have also protected funding for organisations such as Beresford Street Kitchen and the Jersey Childcare Trust.

Most recently I won a proposition to protect the Gas Works site from overdevelopment and prioritise it for a much needed school. I have fought for much more, including free school meals, increases in the minimum wage, removing duty from biofuels, and landlord licensing to protect tenants and good landlords, which the wider Assembly failed to support. I have tabled more questions than any other member.

I have supported many constituents in a number of areas of specific need. I hold regular drop-in sessions at Springfield and am always available for contact via phone and email. I have

campaigned for facilities and officers to support deputies to increase our ability to help our constituents. This is essential for us to maximise our deputy roles and do effective casework. I have the ability to act as an advocate for all in our community.

I am standing for re-election because I want to continue my work and complete the task of providing schools and youth facilities for the St Helier Central constituency. I will continue to represent you with strength and purpose. I will drive forward a progressive Education agenda, ending the constant cycle of employing expensive consultants, and instead, acting to improve opportunities for our young people and enable lifelong learning.

I have worked with small islands across the world through my role on the Commonwealth Parliamentary Association Committee on Climate Change. Jersey must play its part in leading the way and ensuring our response to climate change means a fair transition for all of our community. We can be a model for the rest of the world in our actions.

I chaired the Children's, Education and Home Affairs Scrutiny Panel which has produced 24 comment papers, 7 full and detailed reports with 204 findings and 116 recommendations; lodged 19 amendments, sent over 85 letters and conducted 49 public hearings. I have demonstrated leadership qualities and have the ability to work not only with my Reform Jersey colleagues, but also to co-operate with members across the assembly, to get the best outcomes for all.

We must build a strong economy that is fair to all who live in Jersey as we recover from the pandemic and face wider threats to our society. With more Reform Jersey members in the Assembly, we can deliver more for the people of Jersey and provide the leadership to deliver a New Deal that puts fairness and security for all islanders at the heart of our politics.
