Simon Crowcroft, 'Working for St Helier'.

I enjoy the role of Constable and hope to continue to serve my Parish. St Helier is under extreme pressure, much moreso than in recent years: I think I have the right combination of experience and skills to ensure that it is protected from harm, offers residents the best possible quality of life, and is supported by a States Member with no party allegiance or agenda other than supporting St Helier.

As an independent backbencher I have brought many propositions for debate in the States, the majority of which have been successful, such as repeated efforts to get the States to pay rates, measures to ensure that if the new hospital goes ahead at Overdale any lost Parish facilities will be replaced, agreement on a new country park and, most recently, the decision to support the Havre des Pas lido.

However, Government still fails to treat St Helier fairly in terms of the cost of running the capital, with St Helier ratepayers still having to fund services which are paid for out of general taxation in other parishes, and decisions are taken by Government, affecting St Helier residents and businesses, which should be devolved to a new elected body.

I was disappointed that Andium Homes' recent proposal to double the size of the Millennium Town Park was not supported by the States and I will seek to ensure that this vital project goes ahead, as I believe that the thousands of existing and new residents in central St Helier need a bigger park. I will continue to fight to protect the Parish's precious parks, gardens and open spaces from development.

If re-elected I will seek the setting up of an Urban Task Force to enable regeneration projects to happen much faster and to ensure that residential areas in which most parishioners live are not neglected while the Government works up plans for projects like Fort Regent and the Waterfront. I will continue to press Government to deliver on promises to make walking and cycling easier and safer, to produce the long delayed 'Hoppa Bus' network and a parking strategy which does not disadvantage St Helier car owners, and provides sufficient parking for shoppers and visitors to town.

In March, St Helier had its first St Patrick's Day Parade and I will continue to encourage the holding of events and festivals in the Parish. I have a hands-on and can-do approach to my work, encouraging al fresco and the opening of new hospitality businesses,

supporting town's retailers, and doing all I can to ensure that the Parish team creates a welcoming environment that is clean, attractive, inclusive and valued, with customer care, courtesy, good communication, environmental awareness and efficiency the hallmarks of our dealings with parishioners. I support the invaluable work of the Honorary Police and our other volunteers, including the Battle of Flowers, and with the cost of living rising dramatically I will do all I can to continue to keep Parish rates low.

I am a Jerseyman and have lived in Jersey my whole life. I was born in St Helier, where I currently reside with my wife and two children. An electrician by trade, and the owner and director of two successful businesses.

I regularly encounter parishioner's points of views regarding parish matters and this was my calling in which to stand for election. To be in a role where I can voice people's concerns, to implement their choices and to be their States representative, whilst endorsing my own qualities, skillsets and values.

I'm passionate about St Helier and respect tradition, however a fresh contemporary approach is now required.

I pride myself on being a proactive person and do not make empty promises. I will not be joining a political party as I believe the Constable should remain impartial.

I recognise a need for improving paths for pedestrians/cyclists but there is also a realistic requirement for parking which needs to be rebalanced. There is not enough parking for the disabled, shoppers, residents and contractors alike who are all dissuaded from coming into town because of the parking situation, which in return has a knock-on effect to businesses due to the deficiency in footfall. This needs to be actioned.

We need to ensure a bright, clean and vibrant St Helier, whilst continuing to care and respect the elderly within our community. We should also utilise local talents before consulting resources elsewhere.

Priorities;

- **Improve disability access/ awareness** – Review disabled parking areas and building access. Enhance road/pavement surfaces for disabled individuals.
- **Parking, Roads & Infrastructure** – Although I support a green environment, there is still a need for parking. I propose free on-street parking zones and more carparks. Endeavour to open Broad Street and to review Midvale Road.
- **Environment** – Support resources that protect the environment, welcome the initiation of energy efficient devices with consumer incentives. More kerb-side recycling.
- **Health** – The requirement for a new hospital is crucial, but not at Overdale.
- **Rates** - Sustain low rates whilst providing efficient services that the municipality expects.
- **Homelessness** – Support the Homeless Jersey Strategy. It's important to understand and prevent where possible, individuals from being in such a situation.
- **Young people** – Putting children first. Provide apprenticeship opportunities, present more activities i.e. electric go-karting, under 16's discos. Support the Freedom Centre in restoring the former Odeon where youngsters can meet.
- **Communication** – Improve communication and transparency for parishioners by publicising quarterly meetings to express concerns and provide feedback. Review parish structure and voting system.
- **Honorary Police** – Support the recruitment of the Honorary Police which is a part of our islands heritage and should be retained.
- **Elderly** – Support and care for the elderly. Introduce OAP schemes/ privileges.
- **Island-Wide Matters** – To support any States initiative that will actively target these concerns i.e. housing crisis.

It would be a great privilege to become father of the parish and to be an advocate for the parishioners. I would like to thank everybody who has nominated me for this challenging but assumingly rewarding role.

Dear Parishioner

It has been an honour and a privilege to have served the community of St Helier for the past four years as your Deputy. I hope that you can now support me to be re-elected for a second term.

I am a retired businessman who has lived in our district for the past 34 years.

The Economy

We must ensure that we have a diverse, stable economy which allows private enterprise to flourish.

The number of public sector employees increases every year; we cannot sustain this expansion without increasing taxes. I will oppose any such increase while exorbitant salaries continue to be paid to consultants.

We need to maintain a well-regulated finance industry whilst supporting local businesses – these ambitions are not mutually exclusive.

Taxation

If Independent Taxation is made compulsory, I will support the introduction of a Compensatory Allowance for married couples who would be left worse off.

I welcome the Government of Jersey's commitment to comply with the OECD two-pillar solution.

I would support an increase in stamp duty for "buy-to-let" investment properties and second homes.

I am in favour of the removal of the cap on Long-Term Care contributions. It is essential that we do this to prevent tax increases on "middle" Jersey.

Community

I will propose a 'Utilities Benefit' card for senior citizens (based on the 2020 'Spend Local' card) to reduce the impact of escalating energy charges.

Ombudsman

We must not delay any further the establishment of a Public Service Ombudsman. Once this has been achieved, I will propose the creation of a Health Ombudsman to provide much-needed oversight.

Population

The resident population has increased by 5,400 people over the last 10 years. The new Council of Ministers must respond by implementing the long-awaited population policy.

It is essential that we control immigration into the island. Infrastructure and housing are under significant strain from unsustainable population growth, resulting in ever increasing house prices.

Environment

We must promote renewable energy (and investigate the viability of wave power) with the long-term aim of creating an independent electricity supply.

We must protect the Jersey countryside from overdevelopment. I would oppose the loss of further agricultural fields in the next Island Plan.

Our dairy industry has contracted considerably in recent years and must be supported. Our farming community may also need help if it is to continue supplying the Island with fresh produce.

As I am from a farming family myself, I recognise that these industries are as important to Jersey's identity as they are to our economy.

Education

St Helier deserves a new primary school. Our capital's population has almost reached 36,000 – it is essential that we have suitable, modern educational facilities for our children.

We must ensure that there are adequate resources for our schools, including extra funding for special needs support staff. Our education system has been underfunded for many years and the budgets of other departments will have to be adjusted to correct this.

Please Vote AHIER for Deputy.

Thank you.

I was educated at First Tower Primary School and Haute Vallee Secondary School before spending time working in Jersey's health, fitness and financial service industries. I have always been passionate about politics and this led to me undertaking a degree in Politics, Philosophy and Economics.

I am a committee member on the First Tower Community Association. I believe we need to work toward enhancing community participation in our constituency. I will hold regular surgeries so constituents can discuss their concerns with me.

Below, are just some of the key areas I shall prioritise:

Economy, Business and Tax

- The island needs to embrace a New Economy, whereby Jersey's technology sector is at the forefront in providing sustainable long term economic growth.
- I believe alternative options to the zero-ten tax regime need to be considered because there is an overreliance on personal income taxation.
- Financial Services are fundamental to Jersey's economy, contributing two-fifths of Gross Value Added in 2020.
- The diversification of service export business is vital in generating prospective income from overseas trade to enhance Jersey's Gross National Income.
- I support the introduction of a living wage across all industries.

Government Reform

- The Government requires constitutional reform to ensure Ministers are accountable to the public and the States Assembly.

Education

- In the long term Jersey needs a new University campus to support graduates integration into Jersey's labour market to reduce the extent of external recruitment.
- The upskilling and reskilling of islanders in tertiary based education will need to be prioritised because 17,000 jobs are expected to be lost in Jersey by 2035 as a result of increased automation.

Housing

- I will seek to introduce a Homebuyer scheme for first-time buyers by ring-fencing stamp duty from purchased property with a market value over 2.5 million, to provide shared equity loans between 5 to 20 percent of a purchase price, which will be concomitant with a deferral payment upon the sale of such properties.
- I believe Andium Homes rental policy needs to be reduced in consideration of outstanding debt obligations and future borrowing requirements in building new homes.
- I will seek to negotiate a 3 percent stamp duty surcharge on the purchase of a second or additional property to constrain demand.

Population

- I support the introduction of a Points-based immigration system.
- We need to ensure work permits are granted to support businesses where labour shortages exist.

Hospital

We need to build a much needed hospital, however, Government expenditure needs to be re-appraised in consideration of the prospective national debt increase.

Social Policy and Care

- I believe free pre-school hours should be increased from 30 to 40 hours so parents can seek full-time work.
- Retirees who receive their old age pension should be entitled to the Home Carer's Allowance for the care retirees are responsible for.

I hope you consider me as one of your four votes.

I have been honoured to serve as a St Helier Deputy for the past three years.

Community engagement has been my priority while dealing with issues arising from Covid and Brexit. Being inclusive of everyone in our Jersey community has been at the heart of my work and will continue to be so.

Our island is affected by global events, so I will continue to respond to our changing needs with new and practical solutions.

Housing, the cost of living, population, health and education are significant challenges for the future. The Assembly will have to address these head-on, find and agree on sustainable solutions.

Ever since entering the States, my aim has been to help build a fairer society. Working towards this as an independent Member and Chair of the Public Accounts Committee, I have challenged Government decisions, raised questions, supported local residents, brought forward propositions and amendments.

Within the Parish of St Helier, I have

- Supported parishioners in matters relating to the new hospital project.
- Ensured a 50% open allocation of affordable housing built in country

parishes regardless of parish connections.

- Ensured that the primary schools in St Helier be considered part of infrastructure planning.
- Created with “Thrive” and volunteers the “Grow” Community field
- Worked in cooperation with the residential association in developing the First Tower Community hub.
- Established play area standards for the benefit of children and parents.

My aim as a States member will be to continue to work for a fair deal for St Helier and by seeking balanced urban development to make the town a great place to live, work and relax.

Island-wide issues I will focus on if elected:

Better Government

- **Tackle the high cost of living** by protecting essential living costs.
- **Ensure less goes to waste** by spending public money wisely.
- **Diversify the economy** by creating and supporting new industries whilst ensuring our existing businesses thrive.

Fairer Society

- **Make home ownership affordable** by finding ways to make such ownership achievable, particularly for younger Islanders.

- **Encourage the development of St Helier** by the introduction of neighbourhood enhancement schemes.
- **Provide educational opportunities** to enable Islanders of any age to achieve and fulfil their potential.

Future proofing

- **Pursue sustainability** by creating a healthy stable community, a thriving economy and an eco-friendly environment.
- **Deliver food security and affordability** by supporting our agricultural community and a greater connection between town and country.
- **Demand a population strategy** that finds the balance between our need for skills and labour and our need to protect our natural resources.

I will continue working to reduce waste and inefficiency in the public sector and at the same time ensure that health, education and pensions are properly funded.

I believe that a successful and flourishing Jersey depends on collective efforts: from a thoughtful and caring government, from the financial contributions and the goodwill of the business sector, from the great work of charities and above all from Islanders themselves.

As an independent candidate for St Helier North my focus remains to serve the Parish and Island in a positive and constructive manner, concentrating on delivering results for residents. I believe in equality of treatment and opportunity, and importance of diverse perspectives for strong Government.

My commitments and priorities:

The Economy

- I support financial services. The finance industry provides the mainstay of Jersey's employment and economic success, and it is important that this position is maintained, and enhanced by embracing new technologies.
- Promote diversification across sectors such as retail, farming and tourism. It is essential to ensure that dependence is spread, providing wider employment opportunities and revenue income.
- Maintain Jersey's low-tax economy.
- I do not support high borrowing and burden created for future generations.

Education & Population

- Advocate for a full assessment of the islands' skills gap.
- Support and encourage on-island

upskilling, maximise development and utilise local resources, seeking off-island recruitment only where strictly necessary.

- Ensure facilities and green spaces are provided for St Helier schools.
- Promote programmes for continual development using further and higher education.
- Incentivise students to return to the island following further education.
- Controlling immigration by way of work permits.

Housing

- Home ownership is beyond the reach of many. I support affordable housing for all, including key workers and share-ownership.
- Utilisation of brownfields sites when cresting developments
- Fully utilising empty properties and investigation of obstacles preventing their creation as suitable homes.
- Whilst the integrity of historic building is important, ensure policies do not prohibit appropriate modernisation.

Health

- Following approval of the Jersey Care model, ensure islanders receive the same level of care without extra cost. The elderly, sick and those less fortunate must receive the necessary protection and support.
- An holistic approach with joint agency initiatives should be encouraged and extended, in order to achieve maximum collective effectiveness.

- Implement recommendations from HSS Mental Health reviews.
- Implement recommendations from Maternity review.

Environment

- Passionate about the protection of green spaces and agricultural land
- I support the creation of cycle paths
- I support utilising solar panels in all new properties

Government

- It is essential to have genuine transparency across States Departments and Government, in order that everyone can see where money is spent, and lines of accountability are clear. Firm control of public expenditure focused on customer service with lean structures.

About me

Born in Jersey to a farming family I was educated at Les Landes and Les Quennevais. I have lived in the island all my life with short work secondments overseas.

Married to David, we have a 15 year-old daughter, Natalie. I am a Member of the Association of Accounting Technicians and hold an LLB in Law.

Jersey Income Tax Department; Jersey Airport; Department for Agriculture and Fisheries; Accountancy firms; Police Officer (1989-2014); Civil Servant (Treasury); Corporate Management Portfolio Office. States Deputy District 3/4 St Helier 2018-present.

I have served as a States Deputy representing the Parish of St John since the election in May 2018, and my motivation for standing then, as now, was to improve services within the parish and make a difference for people and their families.

Before moving to the island in 1990 I was a Health Service Nurse Manager, then a Management and Commissioning Consultant to businesses setting up Residential and Nursing Homes in the private sector.

I continued this work in the Island, managing a Nursing Home and then commissioning a Residential Home. In the mid 90s I became the General Manager for The Shelter Trust, moving back to clinical practice at the Jersey General Hospital in 1999. I retired from civilian employment in 2013.

Whilst managing Mental Health Services in Cambridge, I successfully applied to join the Army Medical Services Reserve, and was commissioned in 1979, retiring from the role in 2006, having attained the rank of Major.

In March 2004 I was mobilised to serve with the Army Medical Services in Iraq, returning in November, when I was elected Honorary Police Centenier, a role that involved dealing with offenders at Parish Hall Enquiries and presenting cases in the Magistrates Court. I held this office for 13 years until elected Deputy in 2018.

My training and work in Health Services have given me an understanding of a broad spectrum of people from a diverse range of backgrounds. I have an acute sense of the need for social justice and my experience has proved invaluable in the roles that I have undertaken within the States. In my term of office I have played an active part in the process of scrutinizing Government as a member of two panels, Health and Social Services, and Education and Home Affairs. In addition, I was a member of a panel reviewing progress with the development of children's services in the wake of Jersey's Historic Child Abuse Enquiry.

In December 2020 I was appointed Assistant Health Minister and also Assistant Children's Minister with specific responsibility for mental health in both roles, as the Island's Child and Adolescent Mental Health Services fall within the remit of the Children's Minister.

During my current term I have been able to assist a significant number of people in the parish, and island wide, to resolve issues they have encountered as service users. There has been considerable additional investment in mental health services with a measurable improvement in their delivery, but there remains a long way to go.

Given that, in advance of the forthcoming election, a number of independents decided to form political parties, I chose to align with Reform Jersey, given that I share their aspirations for a more just and equal society. I am seeking election in St Helier North as the needs of the residents are similar to those in my current parish but I feel I can do more to support those in St Helier.

Please consider me for one of your votes

Jersey born, I have enjoyed the benefits of growing up on this beautiful island. I was educated at St Mary's School and De La Salle College before going to Aston University in Birmingham for my pharmacy degree.

On returning to Jersey in 1991, I took over the oldest pharmacy on the island, De Faye's Chemist. My work there enabled me to work closely with people in our community. A local pharmacy is expert healthcare without an appointment. This, together with the informal non-clinical environment, meant that I established close links with all my customers and gained insights into the day-to-day issues that affected them.

In recent years I worked with the Co-op and was central in establishing free GP appointments for under 5s.

In 2016, I joined the committee of Family Nursing and Home Care (FNHC). I had previously worked with FNHC for 14 years which allowed me to develop a keen understanding of how much the charity does for islanders. I was appointed their Chairperson in 2018 and, together with everyone at FNHC, I am proud of the quality of the services the teams deliver to our community. Everyone who works for FNHC are central to the island delivering its healthcare system.

Throughout my career I have worked with the Government of Jersey to develop and improve quality and accessibility of healthcare services. There are many incredible people working within healthcare, however it is apparent that the systems and processes simply get in their way. We have all heard people question the delivery, effectiveness, and transparency of the government on our island. Addressing these issues will unlock the potential of people who work both with and within government, to enable them to deliver expert, best quality services to all islanders.

This is the reason I have chosen to stand with Jersey Alliance. My background is in healthcare; however, I believe improving systems across government will benefit all islanders. Jersey Alliance brings together an extensive range of skilled and experienced individuals, alongside seasoned politicians from both on and off-island, including people with:

- Business/ commercial backgrounds,
- Strong histories in voluntary/ charity work,
- Legal and economic skills

This exceptional mix is only present to this extent within Jersey Alliance.

I ask you to vote for me, and my colleagues within the Alliance, to enable us to bring as much of our skills and experience to bear as possible.

Finally, the island, and its community, has always felt like a home and I believe that is what makes Jersey, and the people who live in it, truly special. The First Tower Community Association (who can forget the campaign to save the local shop?) is a superb example of what people can achieve on their island. I will work to encourage more of this community spirit across the whole district and indeed the whole island.

After serving as a deputy and a Senator in the States between 2000-2005, I found it to be a very lonely place working on my own.

It was hard and frustrating work at the end of which I felt I had achieved very little on behalf of the people I represented.

My desire to go back into the States was re-kindled when I read of the formation of the Jersey Alliance Party and saw the quality of the men and women involved.

By the time of the election in June, we hope to have between 15-20 candidates, all of them with experience at senior levels in either government, housing, charitable work, the law, journalism, or finance and with clearly defined and carefully developed policies. Working as a team, we make a formidable group of men and women who have practical and cost-effective solutions to solve those difficult problems we face in the future. Our priorities are:

- Increasing Andium's house building programme to 5,000 new affordable homes by 2030
- Help young people to buy their home
- Ensure affordable first-class health care

- Ensure world class education and lifelong learning
- Maintain the low tax policy that has served the island so well in the past
- Reduce the reliance on net inward immigration
- protect the environment.

Our leader is Sir Mark Boleat, a Jerseyman educated in the island, who has worked in London for many years before moving back to Jersey. He was knighted by Her Majesty for his contribution to the British finance industry and local government in London.

He has carried out various projects for the States of Jersey and was chairman of Andium Homes, the Jersey Development Company and the Jersey Competition Regulatory Authority. His work on population policy, housing, consumer, financial stability, and Jersey's identity on behalf of the States has been recognised.

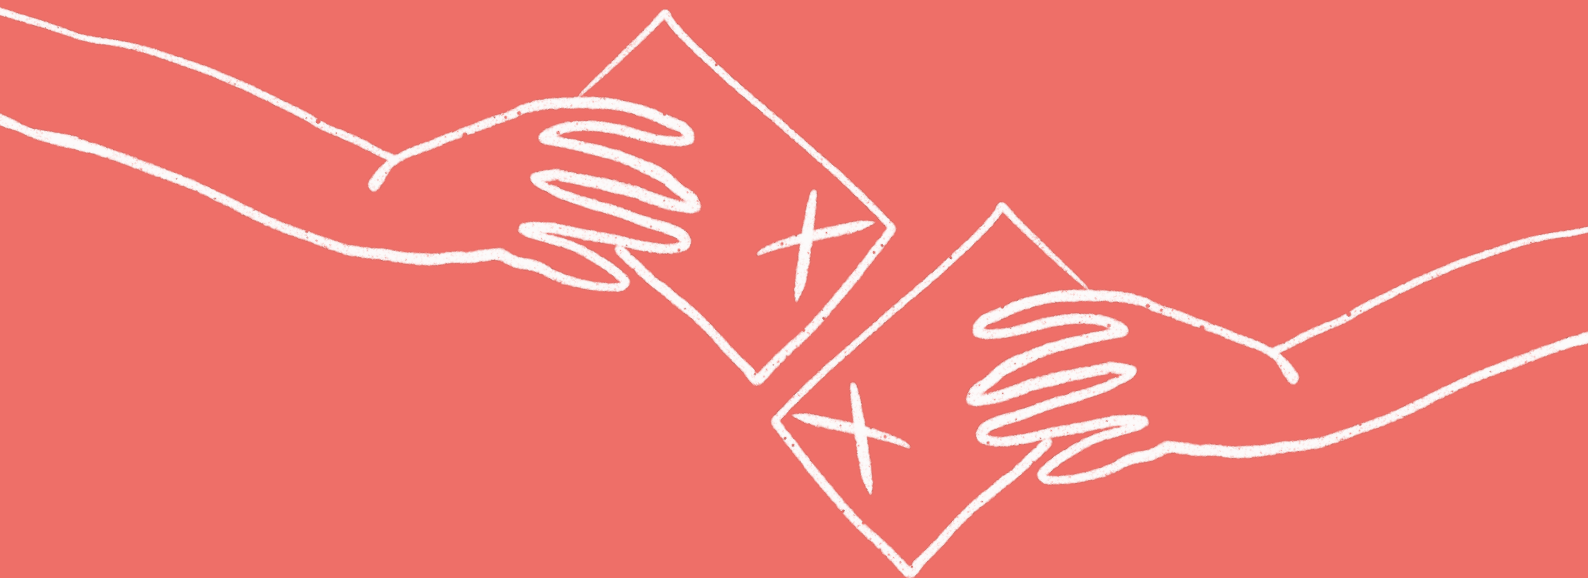

For the last six years I have been chairman of the First Tower Community Association and in that role, I initiated the scheme now known as the "floralisation" of the Martello Tower area working in conjunction with the Jersey Probation Service.

Last year with my friend, Tim Barrass, we successfully organised a 1,000-signature petition to save our local CHECKERS store from closure and I successfully campaigned to ensure that when the new sewage treatment works was built at Bellozanne, the sewage storage tanks would be covered (which the then responsible Minister did not want to do) and the States finally decided they must do at a cost of £4.7 million.

I campaigned relentlessly against putting the new hospital at Overdale and spent four days at the public hearing making various arguments against its location there. As member of the St. Helier Roads Committee, I attended many meetings with the pro hospital group and kept insisting that it was obvious that traffic jams at Cheapside at various times would be inevitable.
